sister _____

brother _____

I'm _____

you're _____

wouldn't _____

isn't _____

stopped _____

babies _____

puppies _____

won't _____

sitting _____

getting _____

placed _____

stayed _____

knives _____

Challenge: other _____

Name _____

Put a . ? or ! where needed on the monster. Circle the letters that need capitals. Color the monster.

where is my monster i need
her right now she has to help
me with my periods she has my
question marks she has everything
where is she i see her now
she is on the floor painting a
picture and eating an apple what
a **lazy** monster how can i get
my work done without her help
maybe my teacher will help me
maybe my friend Alice will help
me i hope someone will soon

Suffix -ly

The suffix *-ly* means “in a way or manner.” When *-ly* is added to a word, it tells how something is done.

softly = in a way that is soft quickly = in a way that is quick

A. Read the questions. Answer each question by writing a word from the box and adding *-ly*.

careful colorful hopeful loud quick quiet slow

1. How should you speak when the baby sleeps? _____

2. How should you walk in a rainstorm? _____

3. How could you yell at a baseball game? _____

4. How does a turtle crawl? _____

5. How should you carry dishes? _____

6. How would you paint a bright picture? _____

7. How might you speak about a wish? _____

B. Write a word to complete each sentence.

8. I spoke _____ as my brother slept.

loudly slowly quietly

9. I ran _____ to the store to get some milk.

slowly loudly quickly

10. I wrote _____ so my teacher could read my paper.

carefully quietly loudly

11. The girl on crutches moved _____ up the stairs.

loudly slowly quickly

12. We yelled _____ when our team scored.

quietly loudly slowly

Name: _____

Date: _____

Find the Evidence

Can you find the PROOF for your answers? Use a crayon in the color shown to underline where you found each answer in the text.

Water Cycle

About 71% of the Earth's surface is covered in water. Although most of that is found in seas and oceans, water can also be found under the ground, in ice, in rivers, in lakes, and in the air as vapor, clouds, and precipitation. Because water is needed for all life on Earth, water is even found *within* plants and animals- including humans!

Water has three states. It can be a solid (ice), a liquid (water), or gas (water vapor). When ice heats up, it melts into liquid water. When liquid water is heated, it evaporates. When the vapor gets cold, it turns back into liquid water, and liquid water can freeze into ice when it's cold.

Water is continually being recycled and reused as water travels through the water cycle. In the water cycle, water falls to Earth as precipitation (rain, snow, hail, sleet, ice, etc.). The precipitation may become runoff to a body of water, freeze into a glacier, be used by a plant or animal, or flow underground as groundwater. It can also evaporate up to the clouds, where it may fall again. While water doesn't always follow the same order, each droplet can keep moving through this cycle forever- so it's important to not pollute our water!

Inside whom can water be found?

What are the three states of water?

Where is most water found on Earth?

Why is it important to not pollute water?

How can water fall as precipitation?

When does liquid water evaporate?

Name: _____

Date: _____

Prefix, Suffix, Make Sense of It!

Draw lines to make new words by combining prefixes and suffixes with root words.

un possible = _____

hope ness = _____

im able = _____

mad happy = _____

dis like = _____

slow ful = _____

un er = _____

do tie = _____

Tiffany silently washed the dirty dishes.

Happily the young boys wiped the messy tables.

He secretly bought an expensive Gameboy.

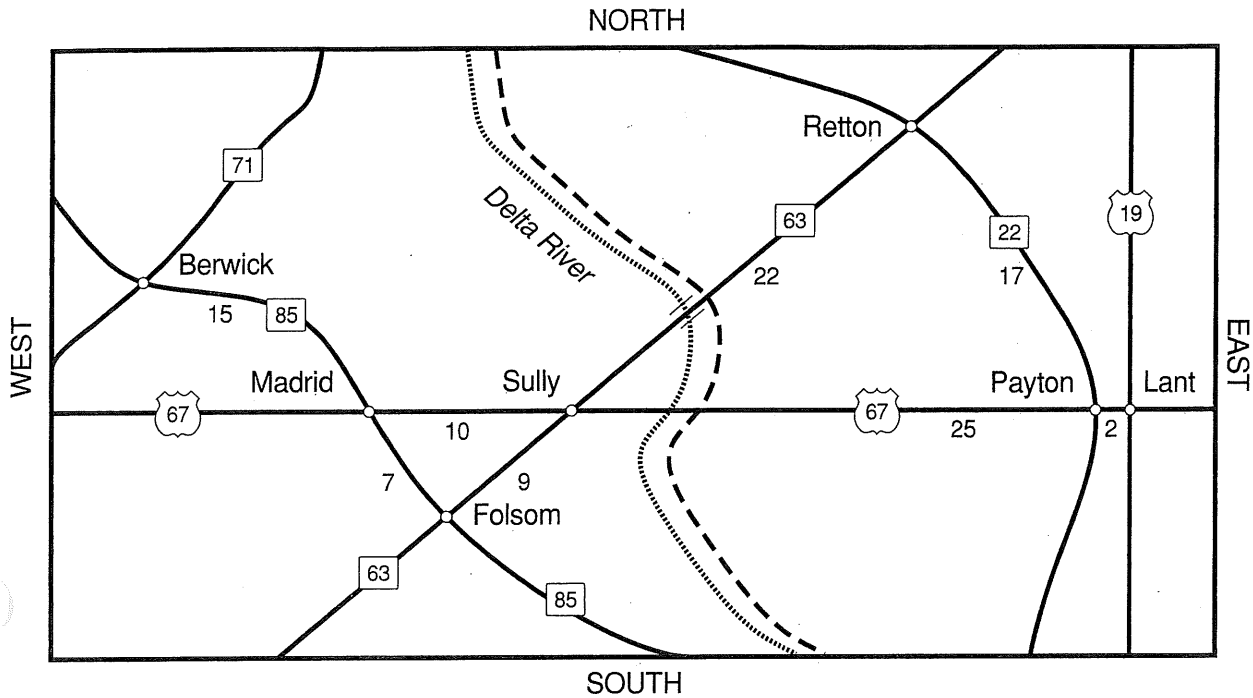

calendar

A table showing the days and months

S1 How do you spell the name of a table showing the days and months?

- calender
- calendar
- calander

Key

- U.S. Highway
- State Highway
- Distance between towns:

1 How far is it from Berwick to Madrid?

- 15 miles
- 22 miles
- 25 miles

2 What kind of road runs beside the Delta River?

- a U.S. highway
- a state highway
- an unpaved road

3 Which town is located northeast of Sully?

- Madrid
- Retton
- Payton

4 If you drove from Folsom to Sully and then went east for 27 miles, where would you be?

- Lant
- Payton
- Berwick

Dynamic Addition

$$\begin{array}{r} 2658 \\ + 2862 \\ \hline \end{array}$$

$$\begin{array}{r} 4874 \\ + 38 \\ \hline \end{array}$$

$$\begin{array}{r} 3498 \\ + 4 \\ \hline \end{array}$$

$$\begin{array}{r} 4397 \\ + 335 \\ \hline \end{array}$$

$$\begin{array}{r} 3978 \\ + 36 \\ \hline \end{array}$$

$$\begin{array}{r} 3387 \\ + 3867 \\ \hline \end{array}$$

$$\begin{array}{r} 3879 \\ + 6 \\ \hline \end{array}$$

$$\begin{array}{r} 3979 \\ + 487 \\ \hline \end{array}$$

$$\begin{array}{r} 4098 \\ + 3097 \\ \hline \end{array}$$

Multiplication by Addition

Practice your multiplication by adding the number as many times as it is being multiplied.

Example:

$$2 + 2 + 2 + 2 = \underline{8}$$

$$4 + 4 = \underline{8}$$

$$2 \times 4 = \underline{8}$$

$$4 \times 2 = \underline{8}$$

$$3 + 3 + 3 + 3 + 3 = \underline{\quad}$$

$$3 + 3 + 3 + 3 = \underline{\quad}$$

$$2 + 2 + 2 + 2 + 2 + 2 = \underline{\quad}$$

$$5 + 5 + 5 = \underline{\quad}$$

$$4 + 4 + 4 = \underline{\quad}$$

$$6 + 6 = \underline{\quad}$$

$$5 \times 3 = \underline{\quad}$$

$$3 \times 4 = \underline{\quad}$$

$$2 \times 6 = \underline{\quad}$$

$$3 \times 5 = \underline{\quad}$$

$$4 \times 3 = \underline{\quad}$$

$$6 \times 2 = \underline{\quad}$$

$$4 + 4 + 4 + 4 + 4 = \underline{\quad}$$

$$2 + 2 + 2 + 2 + 2 + 2 + 2 = \underline{\quad}$$

$$3 + 3 + 3 + 3 + 3 + 3 = \underline{\quad}$$

$$5 + 5 + 5 + 5 = \underline{\quad}$$

$$7 + 7 = \underline{\quad}$$

$$6 + 6 + 6 = \underline{\quad}$$

$$5 \times 4 = \underline{\quad}$$

$$2 \times 7 = \underline{\quad}$$

$$3 \times 6 = \underline{\quad}$$

$$4 \times 5 = \underline{\quad}$$

$$7 \times 2 = \underline{\quad}$$

$$6 \times 3 = \underline{\quad}$$

$$5 + 5 + 5 + 5 + 5 = \underline{\quad}$$

$$2 + 2 + 2 = \underline{\quad}$$

$$2 + 2 + 2 + 2 + 2 = \underline{\quad}$$

$$5 \times 5 = \underline{\quad}$$

$$3 + 3 = \underline{\quad}$$

$$5 + 5 = \underline{\quad}$$

$$2 \times 3 = \underline{\quad}$$

$$2 \times 5 = \underline{\quad}$$

$$3 \times 2 = \underline{\quad}$$

$$5 \times 2 = \underline{\quad}$$

$$2 + 2 = \underline{\quad}$$

$$3 + 3 + 3 = \underline{\quad}$$

$$6 + 6 + 6 + 6 + 6 + 6 = \underline{\quad}$$

$$2 \times 2 = \underline{\quad}$$

$$3 \times 3 = \underline{\quad}$$

$$6 \times 6 = \underline{\quad}$$

Probability/Coin Flip

You will flip a coin 20 times.

Before you begin, guess how many times out of the 20 flips the coin will land on:

Heads _____

Tails _____

Get a coin. Flip it 20 times and let it land on the floor. Make a tally mark of what is facing up.

Heads _____

Tails _____

Compare your results to what you predicted. Try it again.

Name: _____

Multiple-Step Word Problems

Solve the word problems. Show your work.

- a. Haruto has tomato plants in his backyard. This year the plants grew 127 tomatoes. Birds had eaten 19 of the tomatoes. 23 tomatoes had been ruined by bugs. He picked the rest. How many tomatoes did Haruto pick?
- _____
- b. Webster Elementary School has 124 first graders and 130 second graders. On Friday, 12 first graders and 9 second graders were absent. How many first and second graders were in school on Friday?
- _____
- c. Cole and Bryson went to Video Game Land. Cole won 152 tickets. Bryson won 84 tickets. They want to put their tickets together to get a large toy monkey that costs 300 tickets. How many more tickets do they need?
- _____
- d. Clementine and Jake make cookies for the school bake sale. Clementine baked 72 cookies. Jake baked twice as many as Clementine. How many cookies did they bake altogether?
- _____
