PROBLEM SOLVE

Word Questions

Read each problem below. Think the answers to the following questions before you work the problem. Then find the answer and show all your work:

- A. What does the problem tell me?
- B. What does the problem ask me to find?
- C. What must I do to answer the question?

- (1) Mr. Matar, the teacher, bought 25 felt markers in one package. His class had 30 students. How many more felt markers will he need to buy in order to give one to each student?
- (2) Tilda is 22 years old and her sister, Lucy, is 12. Tilda is how much older than her sister?
- (3) Amanda had 25 words in her spelling list. Twelve of these words were giving her trouble. How many of her spelling words did she know without studying?
- (4) Greta is reading a book for a report. The book has 56 pages. She has read 45 pages. How many pages does she have left to read?
- (5) The temperature in a schoolroom should be kept as near 70 degrees as possible. This afternoon, the thermometer said 77 degrees. How many degrees too warm was it?
- (6) The temperature was 95 degrees one day at noon, but by 8:00 p.m., the temperature was 23 degrees cooler. What was the temperature at 8:00 p.m.?
- (7) There were 45 teachers in the Ogden School, and 20 of these were women. How many men taught at the school?
- (8) What would be the difference in the cost of two magazines if the first one cost 75¢ and the second one cost 35¢?

Science Experiment: Move That Boat!!

Materials: really big bowl, veggie oil, aluminum foil about 10 square inches, water, liquid dish soap

Steps:

Make a flat boat (barge) using the aluminum foil. Your design, but it needs to float.

Fill a really large bowl at least halfway with water. (Ask an adult for help. We don't want water everywhere)

Carefully place a drop or two of veggie oil into the bowl of water near the edge where the water meets the bowl.

Carefully place your boat next to the oil on the side opposite the edge. Your boat should be next to the oil and pointing toward the center of the bowl. (Not by the edge of the bowl)

Carefully add a drop of dish soap into the middle of the oil.

What happened?

Draw it!!!

Apostrophes

Apostrophes are used with contractions in place of the missing letter. Example: do not = **don't**. Apostrophes are used to show ownership by placing an 's at the end of a single person, place, or thing. Example: Mary's cat. For more than one person, place or thing, we use an s' at the end of the word. Example: The dogs' bones.

Directions: Write the apostrophes in the words that have the missing letters.

Example: We shouldn't be going to their house so late at night.

1. We didn t think that the ice cream would melt so fast.
2. They re never around when we re ready to go.
3. Didn t you need to make a phone call?
4. Who s going to help you paint the bicycle red?

Directions: Add an apostrophe and an s to the words to show ownership of a person, place or thing.

Example: Jill's bike is broken.

1. That is Holly flower garden.
2. Mark new skates are black and green.
3. Mom threw Dad old shoes away.
4. Buster food dish was lost in the snow storm.

Directions: Add an apostrophe to the words to show ownership by more than one person, place or thing.

Example: The families' tables were all in one place at the picnic.

1. The dogs barking could be heard at the animal hospital.
2. The childrens coats were thrown in a big pile.
3. The brothers faces were covered with mud.
4. The teachers lunches were lost during the field trip.

Too Much Information

Cross out the information you do not need.
Then solve.

Only use the
information you need
to solve a problem.

1. Ella has 52 favorite pictures of wild animals in an album. ~~The album has 75 pages.~~ Mark has 48 favorite pictures of wild animals in his album. How many more favorite wild animal pictures does Ella have than Mark?

_____ animal pictures
2. Zoo Guide A talks to a group of 27 children about how workers feed animals in the zoo. Zoo Guide B talks to a group of 40 children about new baby animals in the zoo. There are 20 Zoo Guides in all in the zoo. How many more children meet with Zoo Guide B than Zoo guide A?

_____ children
3. 63 flamingos live at the zoo. A class of 22 children are watching them. 46 of the flamingos are holding one leg up, which they do when they sleep. How many flamingos are not holding up one leg?

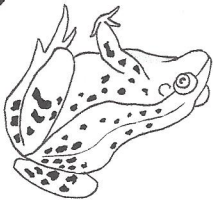

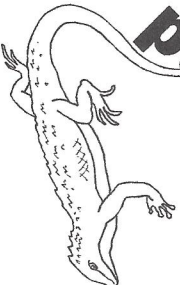

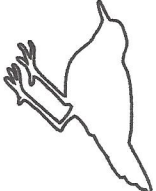

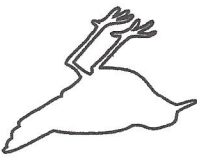

_____ flamingos
4. A zoo keeper has 97 fish to feed to a group of penguins. 38 of the penguins have already been given a fish. There are 75 penguins in all in the penguin house. How many more penguins need to be given a fish?

_____ penguins

Cootie Catcher

Vertebrate Classification

<p>orange</p> 	<p>An alligator belongs to which vertebrate group?</p>	<p>A mouse belongs to which vertebrate group?</p>	<p>red</p> 
<p>belongs to which vertebrate group?</p> <p>turtle</p>	<p>Reptile</p> 	<p>Mammal</p> 	<p>A penguin belongs to which vertebrate group?</p> <p>Bird</p> 
<p>belongs to which vertebrate group?</p> <p>salamander</p>	<p>Amphibian</p> 	<p>Mammal</p> 	<p>belongs to which vertebrate group?</p> <p>dolphin</p>
<p>green</p> 	<p>A toad belongs to which vertebrate group?</p> 	<p>Bird</p> 	<p>A chicken belongs to which vertebrate group?</p>  <p>blue</p>

How to make the Cootie Catcher:

1. Cut out your cootie catcher and color it. Place the square face up and fold and unfold the square in diagonals from corner to corner so you end up with x shaped creases.

2. Place the square facedown and fold each of the four corners in so the points meet in the center.

3. Turn the paper over so the flaps are now facedown. Fold each of the four corners in so the points meet in the center.

4. Fold the square in half from side to side, then unfold it. Fold the square in half from bottom to top.

5. Slide both thumbs and index fingers under the four flaps.

6. Pinch the top corners together with the thumbs and fingers under the flaps to form a point.

How to play:

1. Choose one of the colors printed on the outside square (red, blue, green, or orange).
2. Open and close (front to back and sideways) once for each letter in the color selected. For example: red would be opened and closed three times.
3. Choose and read one of the vertebrate classification questions shown inside and tell which vertebrate group the animal belongs to.
4. Lift the flap of the chosen question and check your answer.
